

Acme PIMS - Planer Reports Menu Screen

Last Revised: 5/19/2004 - InFocus - File: PIMS_Screens.vsd

Data will be loaded from the start of the selected period until the production date entered here.

This row of yellow fields are criteria used when <Print> button is pushed.

These can be modified only by selecting criteria on the "Load Data" tab.

Pressing this button will quickly deselect all Planers and Reports currently selected.

The Combined by Grade Report must be printed for two or more Planers. All other Pre-defined Reports must be printed for one Planer at a time.

Select zero, one or many sections to print.
These Report Sections can only be printed for one Planer at a time.

These Report Sections can only be printed for one Planer at a time.
